## Summary of Selected Projects and Activities

PEACESAT pursues its mission to improve telecommunications in the Pacific Island regions through research and projects which are funded by government agencies, private foundations, and partners. Our project work is based on research and considerable experiences. The work of one project frequently informs and builds on the work of others to form clusters of interrelated projects. The following describes some of the projects and activities of the PEACESAT Program and Telecommunications and Information Policy Group, Social Science Research Institute, University of Hawaii.

### PAST PROJECTS

- 2003-2004 - PEACESAT Technical Options Study (TOS)
- 2003-2004 - Pacific Island Digital Opportunity (PIDO)
